My website: <https://dee-2197.github.io/website>

EPIDEMIOLOGY ANALYST | HEALTH DATA ANALYST | CLINICAL RESEARCH

PROFESSIONAL SUMMARY

I am a trained physician with an MPH in Epidemiology from Emory University Rollins School of Public Health, along with a certificate in data science. I have hands-on experience in statistical analysis using R, SAS, and Python, and I am skilled in data cleaning, regression modeling, and epidemiological study design with a focus on chronic disease and diabetes research. Proven ability to analyze public health data and translate findings into actionable insights. Clinical Data Analyst | Epidemiology & Real-World Evidence | Physician with MPH + Data Science

EDUCATION

Rollins School of Public Health, Emory University

Master of Public Health, Epidemiology | GPA: 3.9 | Certificate in Data Science

Atlanta, Georgia

Aug 2024 – May 2026

Government Medical College, Amritsar

Bachelor of Medicine, Bachelor of Surgery (MBBS)(equivalent to US MD program)

Amritsar, India

Oct 2016 – Feb 2023

TECHNICAL SKILLS

Statistical Programming: R, SAS, Python

Data Visualization: ggplot2, R Shiny dashboards

Statistical Modelling: Logistic & Linear regression, Poisson regression, Survival Analysis

Data Handling: Data cleaning, Transformation, Descriptive analysis

Tools: Excel, ArcGIS, GitHub, Docker

Certifications: CITI Human Subject Research, CITI Social/Behavioral Focus

PROJECTS

WASH-Based Hygiene and Waterborne Disease Analysis | R, Logistic Regression

- Analyzed a cross-sectional dataset of ~1,000 Ethiopian households to investigate socio-environmental determinants of diarrheal disease, providing actionable insights for regional health interventions with the potential of reducing infections by 50%
- Transformed raw field data into high-quality datasets by implementing rigorous data validation and recoding protocols to support evidence-based decision-making
- Modeled disease prevalence using Binary Logistic Regression, adjusting for demographic covariates (e.g., age, sex, and educational status) to isolate the specific odds ratio (OR) of hygiene practices on health outcomes

Interactive Dashboard Development | R Shiny (https://dee-2197.github.io/DATA_555_dashboard)

- Architected a web-based interactive dashboard using R Shiny to visualize capstone data, enabling stakeholders to track health trends across multiple variables
- Performed data preprocessing and transformation using tidyverse
- Engineered high-performance reactive elements and custom user filters, allowing for real-time, dynamic exploration of complex regional health indicators
- Translated intricate epidemiologic findings into actionable insights through intuitive ggplot2 visualizations and key performance indicators (KPIs)

RESEARCH EXPERIENCE

Public Health Intern

May 2025 – Aug 2025

Emory Global Diabetes Research Centre, Woodruff Health Sciences, Emory University | Supervisor: Dr. Shivani A. Patel, PhD

- Executed a systematic literature review of 50+ peer-reviewed articles to identify gaps in diabetes health disparities and inform study hypotheses
- Contributed to the study by co-authoring research protocols and developing validated questionnaire instruments to ensure high-quality data collection
- Advanced data readiness by managing large datasets in SAS, including data merging, variable recoding, and outlier detection
- Conducted descriptive and bivariate statistical analyses, synthesizing findings into reports that guided the direction

of ongoing public health research projects

Capstone Project – CARE (NGO)

Apr 2026

Emory University Rollins School of Public Health | Atlanta, Georgia

- Conducted descriptive and analytical data analysis using epidemiologic methods to evaluate the association between WASH-based hygiene and diarrhea prevalence.
- Translated raw capstone data into interactive insights, using data visualization techniques to communicate trends in population health outcomes to academic stakeholders

Lead Research Investigator

2021 – 2024

Government Medical College, Amritsar, India | Supervisor: Dr. Manmeet Kaur Sodhi, MBBS MD (Pediatrics), Head of Pediatrics

Quality of life in adolescents (10–20 years) with Type 1 Diabetes Mellitus and impact on their families

- Coordinated multi-site data collection efforts for a public health survey, ensuring strict adherence to standardized sampling protocols and ethical guidelines.

PUBLICATIONS

Kushdeep Singh, Narender Pal Jain, Sandeep Chhabra, Prannav Jain, Deepanshu Goel. (2023). Prevalence of Musculoskeletal Manifestations in Type 2 Diabetes: A Single Centre Cross-Sectional Study. *Clinical Diabetology*, Via Medica Journals.

CLINICAL AND FIELD EXPERIENCE

Observership in Radiology

Sep 2023 – Oct 2023

Under Dr. Sudha Mirchia, MD (Radiology) | India

- Developed advanced clinical acumen through the systematic review of approximately 100 cases, gaining hands-on exposure to MRI, CT scan, and mammography techniques

Elective in Internal Medicine

Jan 2023

LaSante Health Centre | New York

- Conducted comprehensive patient evaluations and streamlined clinical documentation to ensure accuracy and continuity of care
- Contributed to multidisciplinary case discussions and clinical decision-making, while managing Electronic Medical Records (EMR) and gaining proficiency in U.S. healthcare delivery systems to sharpen clinical data interpretation

Pre-Graduate Clinical Internship

Apr 2021 – Apr 2023

Government Medical College and Hospital, Amritsar | India

- Completed comprehensive clinical rotations across Internal Medicine, General Surgery, Pediatrics, and OB/GYN, gaining diverse exposure to acute and chronic pathology in multidisciplinary settings
- Managed full-spectrum patient care, including detailed history taking, systematic physical examinations, and formal case presentations to attending physicians to guide diagnostic and treatment plans
- Served as a frontline healthcare provider during the COVID-19 pandemic (Mar–Oct 2021), delivering critical care and triaging high-acuity patients within a high-volume clinical environment

TRAINING

Workshop on R | Emory University Rollins School of Public Health | April 2025

Workshop on Nutrition Research | Centre for Nutrition Research and Training (CNRTI), ICM | Nov 2022

Basic Life Support Course | Indian Academy of Pediatrics, Dept. of Pediatrics, GMC Amritsar | Aug 2021

CERTIFICATIONS

Data Science Certificate | Emory University Rollins School of Public Health

Punjab Medical Council License | Licensed to practice as a physician in India (MBBS equivalent to US MD)

COMMUNITY SERVICE

Elizabeth Foundation | Atlanta, Georgia – Food distribution support

Atlanta Community Food Bank | Atlanta, Georgia – Warehouse operations

Chattanooga Food Bank | Chattanooga, Tennessee – Community kitchen, warehouse activities, and food preparation
